To do that, we need to collect, use, and share some of your personal information. This Privacy Policy is meant to help you understand how Lyft does that and how to exercise the choices and rights you have in your information.

Lyft's [privacy homepage](#) provides additional information about our commitment to respecting your personal information, including ways for you to access and delete that information.

1. The Scope of This Policy

This policy applies to all Lyft users, including Riders and Drivers (including Driver applicants), and to all Lyft platforms and services, including our apps, websites, features, and other services (collectively, the "Lyft Platform"). Please remember that your use of the Lyft Platform is also subject to our [Terms of Service](#).

2. The Information We Collect

When you use the Lyft Platform, we collect the information you provide, usage information, and information about your device. We also collect information about you from other sources like third party services, and optional programs in which you participate, which we may combine with other information we have about you. Here are the types of information we collect about you:

A. Information You Provide to Us

Account Registration. When you create an account with Lyft, we collect the information you provide us, such as your name, email address, phone number, birth date, and payment information. You may choose to share additional info with us for your Rider profile, like your

photo or saved addresses (e.g., home or work), and set up other preferences (such as your preferred pronouns).

Driver Information. If you apply to be a Driver, we will collect the information you provide in your application, including your name, email address, phone number, birth date, profile photo, physical address, government identification number (such as social security number), driver's license information, vehicle information, and car insurance information. We collect the payment information you provide us, including your bank routing numbers, and tax information. Depending on where you want to drive, we may also ask for additional business license or permit information. We may need additional information from you at some point after you become a Driver, including information to confirm your identity (like a photo).

Ratings and Feedback. When you rate and provide feedback about Riders or Drivers, we collect all of the information you provide in your feedback.

Communications. When you contact us or we contact you, we collect any information that you provide, including the contents of the messages or attachments you send us.

B. Information We Collect When You Use the Lyft Platform

Location Information. Great rides start with an easy and accurate pickup. The Lyft Platform collects location information (including GPS and WiFi data) differently depending on your Lyft app settings and device permissions as well as whether you are using the platform as a Rider or Driver:

- **Riders:** We collect your device's precise location when you open and use the Lyft app, including while the app is running in the background from the time you request a ride until it ends. Lyft also tracks the precise location of scooters and e-bikes at all times.
- **Drivers:** We collect your device's precise location when you open and use the app, including while the app is running in the background when it is in driver mode. We also collect precise location for a limited time after you exit driver mode in order to detect ride incidents, and continue collecting it until a reported or detected incident is no longer active.

Usage Information. We collect information about your use of the Lyft Platform, including ride information like the date, time, destination, distance, route, payment, and whether you used a promotional or referral code. We also collect information about your interactions with the Lyft Platform like our apps and websites, including the pages and content you view and the dates and times of your use.

Device Information. We collect information about the devices you use to access the Lyft Platform, including device model, IP address, type of browser, version of operating system, identity of carrier and manufacturer, radio type (such as 4G), preferences and settings (such as preferred language), application installations, device identifiers, advertising identifiers, and push notification tokens. If you are a Driver, we also collect mobile sensor data from your device (such as speed, direction, height, acceleration, deceleration, and other technical data).

Communications Between Riders and Drivers. We work with a third party to facilitate phone calls and text messages between Riders and Drivers without sharing either party's actual phone number with the other. But while we use a third party to provide the communication service, we collect information about these communications, including the participants' phone numbers, the date and time, and the contents of SMS messages. For security purposes, we may also monitor or record the contents of phone calls made through the Lyft Platform, but we will always let you know we are about to do so before the call begins.

Address Book Contacts. You may set your device permissions to grant Lyft access to your contact lists and direct Lyft to access your contact list, for example to help you refer friends to Lyft. If you do this, we will access and store the names and contact information of the people in your address book.

Cookies, Analytics, and Third Party Technologies. We collect information through the use of "cookies", tracking pixels, data analytics tools like [Google Analytics](#), SDKs, and other third party technologies to understand how you navigate through the Lyft Platform and interact with [Lyft advertisements](#), to make your Lyft experience safer, to learn what content is popular, to improve your site experience, to serve you better ads on other sites, and to save your preferences. Cookies are small text files that web servers place on your device; they are designed to store basic information and to help websites and apps recognize your browser. We may use both session cookies and persistent cookies. A session cookie disappears after you close your browser. A persistent cookie remains after you close your browser and may be accessed every time you use the Lyft Platform. You should consult your web browser(s) to modify your cookie settings. Please note that if you delete or choose not to accept cookies from us, you may miss out on certain features of the Lyft Platform.

C. Information We Collect from Third Parties

Third Party Services. Third party services provide us with information needed for core aspects of the Lyft Platform, as well as for additional services, programs, loyalty benefits, and promotions that can enhance your Lyft experience. These third party services include background check providers, insurance partners, financial service providers, marketing providers, and other businesses. We obtain the following information about you from these third party services:

- Information to make the Lyft Platform safer, like background check information for drivers;
- Information about your participation in third party programs that provide things like insurance coverage and financial instruments, such as insurance, payment, transaction, and fraud detection information;
- Information to operationalize loyalty and promotional programs, such as information about your use of such programs; and
- Information about you provided by specific services, such as demographic and market segment information.

Enterprise Programs. If you use Lyft through your employer or other organization that participates in one of our Lyft Business enterprise programs, we will collect information about you from those parties, such as your name and contact information.

Concierge Service. Sometimes another business or entity may order you a Lyft ride. If an organization has ordered a ride for you using our Concierge service, they will provide us your contact information and the pickup and drop-off location of your ride.

Referral Programs. Friends help friends use the Lyft Platform. If someone refers you to Lyft, we will collect information about you from that referral including your name and contact information.

Other Users and Sources. Other users or public or third-party sources such as law enforcement, insurers, media, or pedestrians may provide us information about you, for example as part of an investigation into an incident or to provide you support.

Responding to Legal Proceedings and Requirements. Sometimes the law, government entities, or other regulatory bodies impose demands and obligations on us with respect to the services we seek to provide. In such a circumstance, we may use your personal information to respond to those demands or obligations.

4. How We Share Your Information

We do not sell your personal information. To make the Lyft Platform work, we may need to share your personal information with other users, third parties, and service providers. This section explains when and why we share your information.

A. Sharing Between Lyft Users

Riders and Drivers.

Rider information shared with Driver: Upon receiving a ride request, we share with the Driver the Rider's pickup location, name, profile photo, rating, Rider statistics (like approximate number of rides and years as a Rider), and information the Rider includes in their Rider profile (like preferred pronouns). Upon pickup and during the ride, we share with the Driver the Rider's destination and any additional stops the Rider inputs into the Lyft app. Once the ride is finished, we also eventually share the Rider's rating and feedback with the Driver. (We remove the Rider's identity associated with ratings and feedback when we share it with Drivers, but a Driver may be able to identify the Rider that provided the rating or feedback.)

Driver information shared with Rider: Upon a Driver accepting a requested ride, we will share with the Rider the Driver's name, profile photo, preferred pronouns, rating, real-time location, and the vehicle make, model, color, and license plate, as well as other information in the Driver's Lyft profile, such as information Drivers choose to add (like country flag and why you drive) and Driver statistics (like approximate number of rides and years as a Driver).

Although we help Riders and Drivers communicate with one another to arrange a pickup, we do not share your actual phone number or other contact information with other users. If you report a lost or found item to us, we will seek to connect you with the relevant Rider or Driver, including sharing actual contact information with your consent.

Shared Ride Riders. When Riders use a Lyft Shared ride, we share each Rider's name and profile picture to ensure safety. Riders may also see each other's pickup and drop-off locations as part of knowing the route while sharing the ride.

Rides Requested or Paid For by Others. Some rides you take may be requested or paid for by others. If you take one of those rides using your Lyft Business Profile account, a code or coupon, a corporate credit card linked to another account, or another user otherwise requests a ride for you, we may share some or all of your ride details with that other party, including the date, time, charge, rating given, region of trip, and pick up and drop off location of your ride.

Referral Programs. If you refer someone to the Lyft Platform, we will let them know that you generated the referral. If another user referred you, we may share information about your use of the Lyft Platform with that user. For example, a referral source may receive a bonus when you join the Lyft Platform or complete a certain number of rides and would receive such information.

B. Sharing With Third-Party Service Providers for Business Purposes

Depending on whether you're a Rider or a Driver, Lyft may share the following categories of your personal information for a business purpose (as we have done for the preceding 12 months) to provide you with a variety of the Lyft Platform's features and services:

- Commercial information, such as ride information, Driver/Rider statistics and feedback, and Driver/Rider transaction history;
- Internet or other electronic network activity information, such as your IP address, type of browser, version of operating system, carrier and/or manufacturer, device identifiers, and mobile advertising identifiers; and
- Location data.

- Comply with any applicable federal, state, or local law or regulation, civil, criminal or regulatory inquiry, investigation or legal process, or enforceable governmental request;

E. Upon Your Further Direction

With your permission or upon your direction, we may disclose your personal information to interact with a third party or for other purposes.

5. How We Store and Protect Your Information

We retain your information for as long as necessary to provide you and our other users the Lyft Platform. This means we keep your profile information for as long as you maintain an account. We retain transactional information such as rides and payments for at least seven years to ensure we can perform legitimate business functions, such as accounting for tax obligations. If you request account deletion, we will delete your information as set forth in the “Deleting Your Account” section below.

We take reasonable and appropriate measures designed to protect your personal information. But no security measures can be 100% effective, and we cannot guarantee the security of your information, including against unauthorized intrusions or acts by third parties.

6. Your Rights And Choices Regarding Your Data

As explained more below and on our [privacy homepage](#), Lyft provides ways for you to access and delete your personal information as well as exercise other data rights that give you certain control over your personal information.

A. All Users

Email Subscriptions. You can always unsubscribe from our commercial or promotional emails by clicking unsubscribe in those messages. We will still send you transactional and relational emails about your use of the Lyft Platform.

Profile Information. You can review and edit certain account information you have chosen to add to your profile by logging in to your account settings and profile.

Location Information. You can prevent your device from sharing location information through your device's system settings. But if you do, this may impact Lyft's ability to provide you our full range of features and services.

Cookie Tracking. You can modify your cookie settings on your browser, but if you delete or choose not to accept our cookies, you may be missing out on certain features of the Lyft Platform.

Do Not Track. Your browser may offer you a "Do Not Track" option, which allows you to signal to operators of websites and web applications and services that you do not want them to track your online activities. The Lyft Platform does not currently support Do Not Track requests at this time.

Deleting Your Account. If you would like to delete your Lyft account, please visit our [privacy homepage](#). In some cases, we will be unable to delete your account, such as if there is an issue with your account related to trust, safety, or fraud. When we delete your account, we may retain certain information for legitimate business purposes or to comply with legal or regulatory obligations. For example, we may retain your information to resolve open insurance claims, or we may be obligated to retain your information as part of an open legal claim. When we retain such data, we do so in ways designed to prevent its use for other purposes.
